Application Boundary

Existing trees
Dashed line indicates Root Protection Area. Refer to drawing 6662-LD-PLN-110 for further details.

Proposed trees
Refer to LUC drawings 6662-LD-PLN-400 for further details.

Existing Planting
To be retained.

TS01 - 150mm depth imported premium topsoil to seeded lawn areas
Quality according to BS 3882.

TS02 - 400mm depth imported premium topsoil to planting beds
Quality according to BS 3882.

TS02 - 200mm depth imported premium topsoil to planting beds
Topping up and mixing in with 250mm depth of existing site won topsoil. Care to be taken inside existing tree root protection areas, with an undisturbed 2m offset to tree bole. Quality according to BS 3882.

TS04 - 800mm depth imported premium topsoil to tree pit, 1000mm diameter circular pits
Quality according to BS 3882.

Notes:

All imported topsoil to conform to BS 3882:2015.

Site won topsoil
Strip and store to specification. When re-laying existing topsoil for grass areas allow for spreading and breaking up of large lumps, plus x2 rollover with a hand roller to squash lumps and clods of previously lifted top soil. Bring soil into condition suitable for forming a tilth for seeding.

When re-laying for planted areas add screening of site won soil to remove clods and grass roots from soil.

Project
Camberwell New Cemetery
Area B

Client
London Borough of Southwark
